

## **2017 National Security Law Institute Topics List**

Below is a general mapping of Institute topics. The program varies slightly from year to year, taking into account current developments, such as tensions in the South China Sea and the expansion of the so-called “Islamic State” or ISIS. (Programming on specific days must be flexible to accommodate the busy schedules of our speakers.)

### ***1. Theory and Understanding War and the Use of Force***

- **Theoretical Approaches to National Security and World Order**
- **Understanding War**
- **Historical Development of the Law of Conflict Management**
- **Institutional Modes of Conflict Management**
